Find Yourself (or Not):

A Word Search Experiment

This is not your average word search book.

It's a journey—a deep, inner exploration disguised as a puzzle. Depending on who you are, it might feel like a mindfulness exercise, a cosmic joke, or a wonderful detour. All interpretations are valid.

You'll face challenges that ask you to look for words, names, and maybe even fragments of yourself. Whether you take it seriously or with a wink of irony, something inside you will be found—or at least entertained.

Among the pages, you'll search for your name, your friends' names, your ex's, your idols, your enemies, and a few random strangers who somehow made the list. You'll also encounter traits, emotions, flaws, and virtues that might (or might not) describe you.

There are no strict rules here. You can follow the “one challenge per day” idea, or you can tear through the whole thing like a late-night wave of inspiration. You can go in order, skip around, or even invent your own prompts. You might discover hidden words that weren't meant to be there—perhaps a message from the universe, or just a typo.

Every challenge is simply a starting point. Feel free to twist it, expand it, or ignore it completely. The goal isn't perfection—it's exploration.

By the end, **your copy of this book will be unlike anyone else's**. Because the words you find, and the meaning you give them, belong only to you.

There are no right answers here—only the ones that reveal themselves when you stop searching for the “correct” ones.

After all, this is your word search.
And what you find might just be yourself.

Chapter 1

Your Place in the World

Every journey begins somewhere. And since this one claims to be about “finding yourself,” we might as well start with your roots those blurry coordinates where everything began.

In the pages ahead, you’ll search for the names of your family, your friends, the people who shaped you, annoyed you, or maybe raised you into the masterpiece (or mess) you are today.

You’ll trace your steps across borders, languages, and continents, rediscovering all the places you’ve been—or might one day end up. You’ll find the tongue you were born into, the ones you wish you could speak, and the ones that sound like a beautiful mystery or pure chaos to your ears.

This is where the map of your inner world begins to take shape. Somewhere between “mom,” “uncle,” and “Portuguese,” you might stumble upon the invisible thread that ties all of this together: you.

So go ahead—find your people, your homeland, your languages, your stories. Because before you can find yourself, you have to remember where you came from.
